COMPANY Profile

Integrated Security Solutions

010 745 0477 (GP)
info@coppersky.co.za

Rooted in Experience. Driven by Innovation.

Coppersky Security is a proudly South African, black-owned security company committed to delivering innovative, reliable, and tailored protection solutions. Established in 2024, we may be a newly incorporated entity, but our leadership and operational teams bring decades of collective experience in both physical and technological security services.

Our fresh approach gives us a unique edge—we seamlessly integrate proven industry expertise with the agility to adopt cutting-edge technologies, making our solutions both dynamic and future-ready.

Coppersky Security delivers expert-driven, tech-forward protection.

 smart protection,
built on **experience.**

We specialize in securing industrial, commercial, residential, and institutional environments, offering a comprehensive suite of services that combine manned guarding, advanced surveillance, and smart security systems. Whether it's protecting critical mining infrastructure, securing manufacturing plants, managing crowd control at events, or providing executive protection, our services are purpose-built to meet the evolving security demands of modern South Africa.

Vision

To be South Africa's most trusted security provider, known for excellence in safeguarding industrial operations, commercial properties, and communities – and recognized globally for our innovation and service delivery.

Mission

To provide bespoke, high-quality security services that protect assets, enhance operational safety, and promote sustainable development, while delivering exceptional client satisfaction and empowering local communities

Core Values

- **Integrity** – Ethical, transparent, and trustworthy in all interactions
- **Excellence** – Committed to quality and continuous improvement
- **Safety** – Placing people and risk prevention at the centre of operations
- **Innovation** – Leveraging the latest technologies for smart protection
- **Sustainability** – Promoting eco-friendly practices and community growth
- **Professionalism** – Maintaining the highest standards of service and conduct

Our Approach

Services

01

CUSTOMIZED SECURITY SOLUTIONS

We design security strategies tailored to each client's risks, environment, and operational goals—ensuring effectiveness, adaptability, and cost-efficiency.

02

QUALITY, TRAINING & COMPLIANCE

Our personnel are rigorously trained and certified to deliver security services that meet and exceed regulatory and industry standards.

03

TECHNOLOGY INTEGRATION

We combine manpower with smart tools—CCTV, drones, tracking, alarms, and cybersecurity—to proactively detect, deter, and respond to threats.

04

SUSTAINABILITY & COMMUNITY IMPACT

We create job opportunities, promote local partnerships, and ensure our solutions are environmentally responsible.

Manned Security Services

- **Uniformed Guarding for Commercial, Industrial, and Residential Sites**
Our professional security officers provide a visible, preventative presence to deter threats and ensure the protection of people, property, and assets.
- **Perimeter Security and Access Control (Manual, Biometric, RFID)**
We implement robust access control systems tailored to each site, enhancing entry-point security and ensuring only authorized personnel gain access.
- **24/7 Armed and Unarmed Security Personnel**
Round-the-clock security coverage is available to meet various operational requirements, offering both armed and unarmed officers based on client risk profiles.
- **Crowd Management and On-Site Patrols**
Effective crowd control and regular patrols support the safe and orderly operation of facilities, events, and public spaces.

Surveillance & Monitoring

- **CCTV Installation, Monitoring & Remote Surveillance**
We deploy high-definition camera systems with remote viewing capabilities to ensure continuous site surveillance and proactive threat detection.
- **Drone Surveillance for Large or Inaccessible Sites**
Aerial surveillance using drones allows efficient monitoring of expansive or high-risk areas, enhancing situational awareness and response times.
- **Control Room Operations with Real-Time Threat Response**
Our dedicated control rooms are staffed by trained operators who provide 24/7 oversight, enabling immediate action on incidents and potential security breaches.

Alarm & Incident Response

- **Panic Buttons and Duress Alarms**
Discreet emergency alert systems enable personnel to instantly signal for help in high-risk or distress situations.
- **24/7 Rapid Response to Alarms and Emergencies**
Our highly responsive teams are on standby around the clock to address alarm activations, intrusions, and critical incidents with urgency and precision.
- **Evacuation Planning and Fire Watch Services**
We develop and implement structured evacuation protocols and provide fire watch personnel to mitigate risks in high-hazard environments.

Specialised Protection

- **Executive & VIP Close Protection**
Discreet, high-level personal security services designed to safeguard executives, dignitaries, and high-profile individuals during travel, events, and daily activities.
- **High-Value Shipment Escort and Asset Protection**
Secure transportation and on-route protection for critical assets, raw materials, and high-value goods to prevent theft, loss, or tampering.
- **Equipment and Vehicle Tracking (GPS, RFID)**
Real-time tracking solutions using GPS and RFID technologies to monitor fleet movement, deter misuse, and enhance operational oversight.

Risk Management & Consultancy

- **Risk Audits and Vulnerability Assessments**
In-depth evaluations of physical and operational security to identify potential threats, weaknesses, and compliance gaps.
- **Customized Loss Prevention Strategies**
Tailored solutions to minimize internal and external risks, reduce shrinkage, and enhance overall security posture.
- **Emergency and Crisis Response Planning**
Strategic planning and scenario development to ensure clients are prepared for emergencies, with clear protocols for effective response and recovery.

Cybersecurity for Industrial Systems

Protection for SCADA and IoT Systems

Specialized cybersecurity solutions designed to safeguard industrial control systems and connected devices from cyber intrusion and operational disruption.

Threat Detection and Mitigation for Operational Networks

Continuous monitoring and real-time response to identify, assess, and neutralize cyber threats targeting critical infrastructure and data systems.

Advanced Security Technology

- **Automated Systems (Turnstiles, Boom Gates, Facial Recognition)**
Access control technologies designed for high-traffic and restricted areas, enhancing security and operational efficiency.
- **Integrated Alarm and Detection Systems**
Seamlessly connected systems offering early warning, intrusion detection, and rapid response capabilities across multiple security layers.
- **Robotics and UAV Patrols for Hazardous Zones**
Deployment of autonomous ground robots and drones to monitor high-risk or inaccessible areas with precision and minimal human exposure.

Event Security Services

- **Event Security Services**
Comprehensive security solutions tailored to the scale, nature, and risk level of each event, ensuring smooth operations from start to finish.
- **VIP Protection, Access Control, and Crowd Safety**
Dedicated teams to manage secure access, protect high-profile individuals, and maintain order in high-density environments.
- **Coordination with Law Enforcement for Large-Scale Events**
Strategic collaboration with local authorities to enhance safety, streamline emergency response, and ensure regulatory compliance.

Our Clients

Coppersky Security delivers tailored protection solutions across a wide range of sectors, each with its own unique security requirements. Our industry-specific expertise ensures that every client receives the highest level of service and operational efficiency.

Mining & Engineering

Securing high-value assets, remote operations, and hazardous environments with specialized protection strategies.

Manufacturing & Industrial Sites

Enhancing safety, access control, and loss prevention in high-activity production facilities.

Commercial & Corporate Facilities

Providing professional guarding, surveillance, and access solutions for offices, business parks, and headquarters.

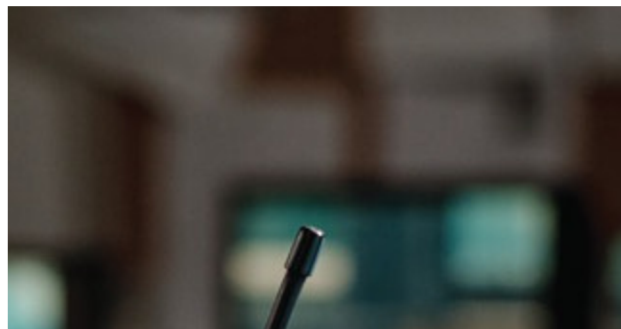

Residential Estates

Delivering peace of mind to homeowners through 24/7 guarding, patrols, and integrated security technologies.

Events & Entertainment Venues

Ensuring smooth crowd control, VIP protection, and emergency readiness for gatherings of all sizes.

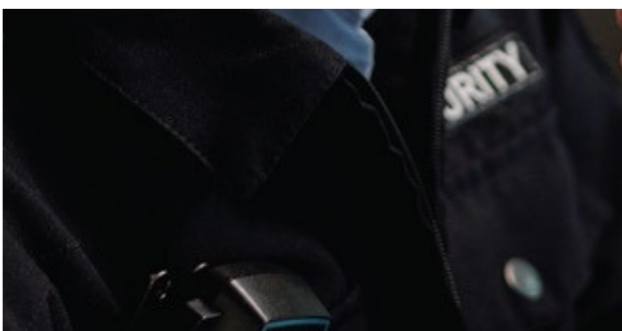

Healthcare & Educational Institutions

Creating secure, compliant environments for staff, patients, students, and visitors.

Government & Municipal Services

Supporting public safety efforts with comprehensive protection of facilities, infrastructure, and personnel.

Retail & Hospitality

Minimizing risk and enhancing customer experience through proactive monitoring and theft prevention.

 Coppersky Security delivers **expert-driven, tech-forward protection.**

Why Choose Us?

01

TAILORED SECURITY SOLUTIONS

We design bespoke security strategies aligned with your specific risks, operational environment, and industry requirements.

02

EXPERIENCED TEAM

Our personnel are professionally trained, certified, and backed by decades of collective experience across diverse security sectors.

03

CUTTING-EDGE TECHNOLOGY

We integrate the latest in surveillance, access control, and cyber protection to deliver intelligent, future-ready security solutions.

04

COMMUNITY-DRIVEN

As a black-owned South African company, we are committed to local job creation, skills development, and inclusive economic growth.

05

NATIONWIDE REACH

Our operational footprint spans across South Africa, combining national capacity with deep local insight and responsiveness.

06

24/7 PROTECTION

We offer uninterrupted security coverage, ensuring your people, assets, and operations are safeguarded at all times.

COPPERSKY
SECURITY

delivering expert-driven,
tech-forward protection.
